La Lucia Ridge

1 December 2011

Dear Dave,

Ridge 1 Development

We are delighted with our participation as shareholders and joint developers of the Ridge 1 Project. The final cost was below the original budget and the project finished on time according to the original projections.

We have taken ownership and are occupying the space that was purchased. We are happy with the build standard, and the quality was more than satisfactory, subject to a few minor snags that are being finished.

Thank you for your involvement and meticulous attention to detail that ensured a very successful and sound investment for ourselves.
